

Do you have a baby aged
0-24 months using
hearing aids?

Join our research
project!

What is the research about?

Researchers at the Manchester Centre for Audiology and Deafness would like to learn more about parent experiences using hearing aids with their baby and any challenges they might face.

We're doing this so we can find out how to best support families to establish regular hearing aid use with babies for best possible benefits.

How do I get in touch?

If you'd like more information or would like to join the study, please contact Dr Ciara Kelly

✉ ciara.kelly@manchester.ac.uk

☎ 0161 275 3376

What is involved?

A video or audio call interview with researcher Ciara Kelly, who will ask you some questions about your experiences using hearing aids with your child that won't last longer than 1 hour.

You will receive an e-voucher for your time.
